## PROVISIONAL GROSS DOMESTIC PRODUCT FOR 2013

### INTRODUCTION

Gross Domestic Product is the estimate of the total value of final goods and services produced in the country during a given period.

The estimation of the Gross Domestic Product (GDP) is done in stages, with estimates generated at each stage being dependent on source data available. Estimates from each stage are progressively designated as projected, provisional, revised and final. It is only the final estimates that are not subject to further changes.

This release is the provisional estimates for 2013, which used mostly half year actual data from production units adjusted to cover the whole year, and also targeted annual production of some economic entities. Further revisions to these estimates will be carried out in April 2014.

### KEY FINDINGS

Provisional GDP estimates for 2013 showed a growth of 7.4 percent over the 2012 revised estimates. The Services sector recorded the highest growth of 9.2 percent, followed by Industry (9.1%), with Agriculture recording the lowest growth of 3.4 percent. Though the estimates show an improvement in the growth of the **Agriculture** sector compared to 2012 (1.3%), its contribution to the economy continues to decline, with its share reducing from 22.7 percent of GDP to 21.3 percent. Crops, however, remains the largest activity in the economy with a share of 15.6 percent of GDP.

In the **Industry** sector, the second largest sector with a share of 28.1 percent, the growth increased from 7.0 percent in 2012 to 9.1 percent in 2013. Of all the activities the Crude Oil Subsector recorded the highest growth in 2013. Without Crude Oil, the GDP (now called "Non-Oil GDP") growth rate declined from 7.9 percent in 2012 to 5.8 percent in 2013; likewise, the Industry sector from 6.5 percent (2012) to 2.2 percent (2013).

Services remain the largest sector, contributing about half (50.6%) to GDP. The growth rate decreased from 10.2 percent in 2012 to 9.2 percent in 2013. Four of the subsectors in this sector recorded growth rates above 10 percent. These sectors are: Hotels and Restaurants; Health Activities; Financial and Insurance Activities; and Information and Communication.

### Memorandum Items

Economic Aggregate	2009	2010	2011*	2012**	2013***
