## HIGHLIGHTS FOR JUNE 2014

### Producer Price Inflation Rate Increased to 33.1% in June 2014

The Producer Price Index (PPI) measures the average change over time in the prices received by domestic producers for the production of their goods and services. The PPI for Ghana reports the producer price indices with reference to September 2006, the base period.

This release shows the producer price changes since September 2006, as well as the annual (year-on-year) and monthly inflation rates, for all industry and three major sub-sectors of industry (Mining and Quarrying, Manufacturing, and Utilities) for the last twelve months. The figures for the month of June 2014 are provisional, and are subject to revision when additional data become available. All other indicators are final.

The Producer Price Inflation rate for June 2014 was 33.1 percent. This rate indicates that, between June 2013 and June 2014 (year-on-year), the PPI increased by 33.1 percent, representing a 0.1 percentage point increase in producer inflation relative to the rate recorded in May 2014 (33.0%). The month-on-month change in producer price index between May 2014 and June 2014 was 0.7 percent.

In June 2014, the producer price inflation in the Mining and Quarrying sub-sector increased by 2.1 percentage points over the May 2014 rate of 35.2 percent, to record 37.3 percent in June 2014. Manufacturing, which constitutes more than two-thirds of total industry, declined by 0.4 percentage points to record 27.1 percent. The rate for the Utilities sub-sectors increased by 56.9 percent in June 2014, suggesting a 0.1 percentage point increase over the May 2014 rate.

During the 12-month period (June 2013 to June 2014), the highest year-on-year inflation rate of 33.1 percent for all industry was recorded in June 2014. Between June and August 2013, the rate declined continuously to record the lowest rate of 4.7 percent in August 2013. In September 2013, however, the rate inched up to record 5.8 percent. Subsequently, the producer price inflation rate has increased consistently over the last eight months to record 33.1 percent in June 2014. This rate is the highest since January 2010.

During the month of June 2014, five out of the sixteen major groups in the manufacturing sub-sector recorded inflation rates higher than the sector average of 27.1 percent (Fig. 2). Manufacture of machinery and equipment n.e.c. recorded the highest inflation rate of 76.0 percent whilst producer prices in the manufacture of wood and wood products except furniture; manufacture of articles of straw and plaiting materials recorded the lowest producer price inflation rate of 2.3 percent over the one-year period.

**PPI** by Sectors; June 2013 to June 2014

**Manufacture of machinery and equipment n.e.c.:** Annual rate was 76.0 percent for June 2014, the same as last month.

**Manufacture of coke, refined petroleum products etc.:** Annual rate was 42.7 percent for May 2014, as compare to 48.2 percent in May 2014.

**Manufacture of motor vehicles, trailers and semi-trailers:** Annual rate was 52.7 percent for May as compared to 53.9 percent last month.

**Electricity and Water Supply:** Annual rate is 56.9 percent; as compare to 56.8 percent in May 2014.

More detailed time series data is posted on the GSS website [[www.statsghana.gov.gh](http://www.statsghana.gov.gh)].

**The next release date is 27th August, 2014**

## PPI for Selected Subgroups in the Manufacturing Sector (Sept.2006=100)

- ◆ Manufacture of food products and beverages
- Manufacture of wood and articles of straw etc.
- ▲ Manufacture of coke, refined petroleum products etc.
- Manufacture of chemicals and chemical products
- ◆ Manufacture of other non-metallic min. products
- Manufacture of basic metals

*Ghana Statistical Service (GSS)*
