

# **GHANA STATISTICAL SERVICE**

**GHANA 2024 STATISTICAL  
PRODUCT RELEASE CALENDAR**

## ABOUT THE RELEASE CALENDAR

The 2024 Ghana Statistical Service (GSS) release calendar presents information on the releases of official statistics that will be published within the year. The provisional release calendar for 2024 presents 32 publications which will present micro-level economic, socio-demographic and health statistics and macroeconomic indicators generated from census, survey, administrative data, and other non-traditional data sources.

In 2023, the Ghana Statistical Service released 24 monthly consumer and producer price inflation bulletins, four quarterly bulletins on GDP, six census reports and thematic briefs, seven survey publications, and four reports based on administrative data sources in addition to the maiden publication of multidimensional poverty scorecards for all 261 districts. GSS also introduced three data user-centred digital products – the online StatsBank, the Digital Census Atlas and Rasterized Maps. GSS issued 14 press releases in 2023 on selected International Days to share statistics and raise awareness on the issues being commemorated.

This release calendar has been designed to inform data users and all stakeholders of the upcoming 2024 publications from GSS and when they will be made available to the public. All publications will be accessible online ([www.statsghana.gov.gh](http://www.statsghana.gov.gh)) and available for download at no cost. Product release events will be live streamed at [www.facebook.com/StatsGhana](https://www.facebook.com/StatsGhana).

# RELEASE DATES

NB: This Release Calendar will be updated quarterly

## 01

### JANUARY

1. Consumer Price Index and Inflation (Week 2)
2. Producer Price Index and Inflation (Week 3)
3. Demographic and Health Survey Main Report (Week 3)
4. Statistical Report on Health (Week 4)

## 02

### FEBRUARY

1. Food Insecurity Statistics (Week 1)
2. Ghana International Travellers Survey Report (Week 1)
3. Labour Statistics (Week 1)
4. Standard Mobility Report (SMR) (Week 1)
5. Food Price Variability (Week 2)
6. Consumer Price Index and Inflation (Week 3)
7. Multidimensional Poverty Indicator Report (Week 3)
8. Intra-Regional Performance Reports on Selected Indicators based on Administrative Data (Week 3)

## 02

### FEBRUARY

9. MMDAs Multidimensional Poverty Index Reports (Week 3)
10. Report on Citizens Satisfaction with Public Services (SDG 16.6.2) using CGD Approach (pilot survey) (Week 3)
11. Producer Price Index and Inflation (Week 4)
12. External Trade Report (Week 4)
13. Trade Vulnerability Report (Week 4)

## 03

### MARCH

1. Domestic Outbound Tourism Survey (Week 1)
2. Leave No One Behind - Report on PWDs Not in Education, Employment or Training (NEET) (Week 1)
3. Regional Education Performance Report on Selected Indicators (Week 1)
4. Consumer Price Index and Inflation (Week 3)
5. Constituency Profiles (Week 3)

## 03

MARCH

6. Report on District Assembly Common Fund Support for PWDs using CGD (pilot survey) (Week 3)
7. Producer Price Index and Inflation (Week 4)
8. Poverty Mapping Report (Week 4)

## 04

APRIL

1. External Trade Report (Week 1)
2. Food Price Variability (Week 1)
3. Statistical Report on Education (Week 1)
4. Statistical Report on Health (Week 1)
5. Consumer Price Index and Inflation (Week 2)
6. Crime Statistics Report (Week 2)
7. Producer Price Index and Inflation (Week 3)
8. Provisional Gross Domestic Product Estimates (Week 3)
9. Unit Value Index (Week 4)

## 05

MAY

1. Domestic Outbound Tourism Survey (Week 1)
2. Consumer Price Index and Inflation (Week 2)
3. Producer Price Index and Inflation (Week 3)

## 06

JUNE

1. Register-based Education Statistics Report (pilot) (Week 1)
2. Consumer Price Index and Inflation (Week 3)
3. Producer Price Index and Inflation (Week 4)
4. Provisional Gross Domestic Product Estimates (Week 4)
5. Consumption Expenditure Poverty Report (Week 4)
6. Integrated Business Establishment Survey Reports (Phase I) (Week 4)
7. Time Series on External Trade Statistics (Week 4)

# 07

JULY

1. External Trade Report (Week 1)
2. Food Price Variability (Week 1)
3. Statistical Report on Education (Week 1)
4. Statistical Report on Health (Week 1)
5. Standard Mobility Report (SMR) (Week 1)
6. Consumer Price Index and Inflation (Week 2)
7. Crime Statistics Report (Week 2)
8. Producer Price Index and Inflation (Week 3)
9. Summary Report on Death due to Road Traffic Accidents, Violence and Other External Causes for Six Regions (Week 3)
10. Report on Citizens Experiences with Corruption in the Public Sector (SDG 15.5.1) using CATI (Week 4)

SEPTEMBER

1. Consumer Price Index and Inflation (Week 3)
2. Producer Price Index and Inflation (Week 4)
3. Provisional Quarterly Gross Domestic Product Estimates (Week 4)

# 10

OCTOBER

1. External Trade Report (Week 1)
2. Food Price Variability (Week 1)
3. Statistical Report on Education (Week 1)
4. Statistical Report on Health (Week 1)
5. Consumer Price Index and Inflation (Week 2)
6. Crime Statistics Report (Week 2)
7. Summary Report on Death due to Road Traffic Accidents, Violence and Other External Causes for Six Regions (Week 2)
8. Report on Gender-Based Violence at the local level using CDG Approach (district level reports) (Week 2)
6. Producer Price Index and Inflation (Week 3)

# 11

NOVEMBER

6. Consumer Price Index and Inflation (Week 3)

7. Producer Price Index and Inflation (Week 3)

# 12

DECEMBER

1. Households and Jobs Tracker Survey Wave 9 Key Findings/Trend Report (5th)

2. Consumer Price Index and Inflation (13th)

3. Producer Price Index and Inflation (20th)

4. Quarterly Labour Force

## ABOUT THE RELEASES

### **Consumer Price Index and Inflation**

The monthly release of the Consumer Price Index (CPI) and Inflation presents the following information for the previous month: definition and measurement of CPI and rate of inflation, CPI and rate of inflation figures, dominant divisions of rate of inflation, disaggregation of rate of inflation and highlights of CPI and rate of inflation

### **Demographic and Health Survey Key Indicator Report**

The 2022 Ghana Demographic and Health Survey Key Indicator Report will provide summary results from the survey and trends in indicators. Some of the statistics to be released from the report include fertility rates; teenage pregnancy; current use of contraception; unmet need for family planning, childhood mortality rates; vaccination rates; nutritional status of children; minimum dietary diversity of children; anaemia among women and children; household possession of insecticide-treated nets; prevalence of malaria in children and knowledge of HIV prevention methods.

### **Demographic and Health Survey Main Report**

The 2022 Ghana Demographic and Health Survey Report will present national and regional estimates of demographic and health indicators that are comparable to data collected in Ghana's six previous Demographic and Health Surveys (DHS). The reports will provide information on child morbidity and mortality, nutritional status of adults and children, disease prevalence, adult health and healthcare utilisation, health seeking behaviour, fertility, and contraceptive prevalence.

## **Ghana International Travellers Survey Quarterly Reports**

The Ghana International Travellers' Survey (GITS), will collect, compile, analyse and disseminate information on international travellers who visit Ghana for tourism purposes. Indicators to be presented in the GITS reports will include visitor expenditure, international inbound visitors (Ghanaians and non-Ghanaians), number of tourists, country of origin of non-Ghanaian tourists, and duration of stay of tourists.

## **Integrated Business Establishment Survey Reports**

The Integrated Business Establishment Survey (IBES) is an economic census to be conducted on the full set of economic units across all sectors of the Ghanaian economy. The Integrated Business Establishment Survey reports to be released include the Summary report, Employment, Job Creation, and Spatial Business Reports. Indicators to be presented in these reports include characteristics of business establishments in Ghana, job creation and employment.

## **Producer Price Index and Inflation**

The monthly release of the Producer Price Index presents the following information for the previous month: definition and measurement of the PPI and changes in producer prices on a year-on-year and month-on-month basis, and disaggregation of PPI.

## **Provisional Quarterly Gross Domestic Product Estimates**

The release of the Provisional Quarterly Gross Domestic Product (GDP) estimated presents the following information for the previous quarter: data compilation and estimation, provisional GDP estimates and disaggregation of GDP by sector.

## **Quarterly Food Insecurity Statistics**

Multidimensional food insecurity statistics will be generated quarterly from the 2022 Annual Household and Income Expenditure Survey (AHIES), a panel survey that provides regular statistics on the welfare of persons in Ghana to better understand vulnerability. Some of the indicators to be generated include the prevalence of moderate and severe food insecurity at the national and regional levels and across different demographic, social, and economic characteristics.

### **Quarterly Labour Statistics**

Labour Statistics will be generated quarterly from the 2022 AHIES, a survey whose main objective is to obtain data to estimate quarterly and annual household final consumption expenditure to support the compilation of quarterly and annual GDP, regional GDP, quarterly unemployment, graduate unemployment, vulnerable employment and youth not in education, employment or training.

### **Quarterly Multidimensional Poverty Statistics**

Multidimensional poverty and food security statistics will be generated quarterly from the 2022 AHIES, a panel survey that will provide regular indicators on the welfare of persons in Ghana and welfare mobility. Some of the indicators to be generated at the national and regional levels include the incidence(headcount) and intensity of multidimensional poverty and the extent of deprivations in different dimensions i.e. living conditions, education and health.

### **Standard Mobility Report (SMR)**

The Standard Mobility Report is a product of the Data for Good Partnership between Ghana Statistical Service (GSS), Vodafone Ghana and Flowminder Foundation, which leverages mobile network metadata to provide insights into mobility patterns in Ghana. The SMR describes population distributions and movements within and between the 16 regions (and districts) in Ghana.

### **Trade Vulnerabilities Report**

International trade is an integral part of the management and performance of every economy, especially for developing countries. The Trade Vulnerability report provides external trade statistics focusing on the relative values and volumes of exports and imports (trade balance). The limitation of this is the lack of detailed insights into which commodities are traded and the profiling of the major trade partners. The statistical products presented in this report reflect an analysis of Ghana's major external trade partners and commodities. This publication is expected to provide trade aggregates on quarterly basis.

# ABOUT THE GHANA STATISTICAL SERVICE

**Vision:** To be the trusted provider of official statistics for good governance.

**Mission:** To lead in the efficient collection, production, management and dissemination of quality Official Statistics based on international standards, using competent and motivated staff for evidence-based decision making, in support of national development.

**Core Values:** The core values are essential to achieving high-performance levels and to create an organisation that will foster professionalism, integrity, accountability, and relevance.

The Ghana Statistical Service (GSS) provides comprehensive, reliable, quality, relevant, accurate and timely statistical information to guide national development as stipulated in Section 3 of the Statistical Service Act, 2019 (Act 1003).

The Statistical Service produces monthly and quarterly data on important economic indicators such as inflation, Consumer Price Index (CPI), Producer Price Index (PPI), and Gross Domestic Product (GDP). GSS also regularly generates population, housing, demographic and economic data at the locality, district, and national levels from routine surveys and censuses. The official statistics from GSS can be utilised by a wide cross-section of users including the public sector, businesses, academia, civil society organisations and development partners.
