Producer Price Inflation Rate in January 2020 is 13.3%  

The Producer Price Index (PPI) measures the average change over time in the prices received by domestic producers for the production of their goods and services. The PPI for Ghana reports the producer price indices with reference to September 2006, the base period. This release shows the annual (year-on-year) and monthly producer inflation rates for all industry and three major sub-sectors of industry (Mining and Quarrying, Manufacturing and Utilities) for the last twelve months. The figures for the month of January 2020 are provisional, and are subject to revision when additional data become available. All other indicators are final.

January 2020 Producer Inflation

The Producer Price Inflation rate for January 2020 was 13.3 percent. This rate indicates that between January 2019 and January 2020 (year-on-year), the PPI increased by 13.3 percent. This rate represents a 0.3 percentage point increase in producer inflation relative to the rate recorded in December 2019 (13.0%). The month-on-month change in producer price index between December 2019 and January 2020 was 0.5 percent (Table 1).
